SKILLS

Tools:

SolidWorks
KeyShot
Blender
Adobe Creative Suite
Figma

Methods:

CAD modeling
3D rendering
3D printing
prototyping
model making
UX design
graphic design
user research
manufacturing
CMF

Technical:

Processing
Arduino

Languages:

English (native)
Japanese (JLPT N3)
Arabic (conversational)

RELEVANT EXPERIENCE

Product Designer + 3D Designer

Razor USA LLC

Cerritos, California 2022 - 2024

- Led end-to-end design and development of two shipped products:
 - "Strawberry Banana" special edition A-Kick Scooter
 - "Kick 2 Glow" Light-up Kick Scooter
- Produced production-ready CAD models, renderings, and animations used for both internal development and consumer-facing marketing.
- Collaborated with engineering and manufacturing teams to bring products from concept to production.
- Contributed to packaging and brand visualization for new product launches.

3D Designer

Trinity Packaging Solutions

Newport Beach, California 2023 (Contract)

- CAD modeled, textured, and visualized products to contribute to an online catalog of thousands of packaging materials.
- Worked independently with minimal oversight, prioritizing and delivering projects within deadlines.

Assistant Language Teacher

Mutsu City, Aomori, Japan

2024 - Present

- Designed and implemented engaging educational materials for more than 12 public schools and community centers.
- Communicated complex concepts to non-native English speakers to promote connection and understanding.
- Facilitated cross-cultural programs connecting the local community with international perspectives.
- Developed conversational level Japanese in a professional environment.

EDUCATION

California State University, Long Beach

B.S. Industrial Design, minor Japanese Language & Culture
2017 - 2021

Hongik University, Seoul, South Korea

Study Abroad - Industrial Design
Spring 2021
