

Hello! I am an interdisciplinary industrial designer dedicated to crafting experiences that help people **make memories** with a feeling, a sound, or unexpected moment that brings delight.

I am focused on the intersection of the natural and technological worlds, and I seek solutions that face towards the future while remaining ***genuine to the human experience.***

SKILLS

Software & Tools:

Solidworks
Keyshot
Blender
Adobe Creative Suite (Photoshop, Illustrator, InDesign)
Figma

Design Methods:

CAD modeling
3D rendering
product visualization
3D printing
prototyping
UX design
user research
design thinking
manufacturing processes

Coding:

Processing
Arduino

Languages:

English (native)
Japanese (conversational)
Arabic (conversational)

EDUCATION

California State University, Long Beach

B.S. Industrial Design, minor Japanese Language & Culture
2017 - 2021

Hongik University, Seoul, South Korea

Study Abroad - Industrial Design
Spring 2021

EXPERIENCE

Assistant Language Teacher

Mutsu City, Aomori, Japan
2024 - Present

A year of personal development and international exchange.

- Developed cross-cultural communication skills while teaching in nearly a dozen public schools and community centers.
- Collaborated with local staff and led cultural programs to promote international understanding.
- Gained conversational Japanese and adapted to a new working environment.

Product Designer + 3D Designer

Razor USA LLC

Cerritos, California 2022 - 2024

Contributed to Razor's Product Development Team, designing, visualizing, and prototyping electric rideables.

- Led design and development of two launched products:
 - "Strawberry Banana" special edition A-Kick Scooter
 - "Kick 2 Glow" Light-up Kick Scooter
- Created 3D product visualizations, CAD models, animations, and packaging design to support new product development and brand refreshes.
- Collaborated with engineers, manufacturers, and marketing teams to bring designs to life through production.

3D Designer

Trinity Packaging Solutions

Newport Beach, California 2023 (Contract)

- CAD modeled, rendered, and visualized products to contribute to an online catalog of thousands of packaging materials.
- Worked independently with minimal oversight. I self-directed to ensure deliverables were completed in a timely manner in order of importance.
